*(Incorporated in the Cayman Islands with limited liability)*

**(Stock Code: 2688)**

## **Supplier Health, Safety and Environment (HSE) Policy**

### **Our Commitment:**

ENN Energy recognizes the importance of supplier's HSE management. We strive to ensure long-term stable supply of products and services that are qualified, safe, healthy and harmless to the environment from our suppliers.

### **Our Policy:**

- Develop standards for the selection, dynamic performance assessment and elimination of business partners. We regard HSE as one of the critical indicators and prioritize partners with exceptional performances for business partnership;
- Incorporate suppliers' HSE performance of partnering projects into appraisal criteria of relevant departments and personnel;
- Incorporate sustainable development elements, such as occupational health, production safety and environmental protection, into construction contract and compliance evaluation;
- Require suppliers to operate in accordance with the Company's HSE guidance and systems, subject to the Company's oversight and performance assessment;
- Verify relevant professional qualifications of suppliers' key personnel and file on the Company's digital platform. The key personnel shall receive training and assessments in relation to the safety and construction standards of the Company (including training and assessment on corporate standards and safety education), while training records shall be well-documented;
- Certify suppliers' on-site safety and environmental equipment/facilities, implementation of safety and isolation measures and provision of safety construction conditions;
- Encourage and assist suppliers to identify and eliminate hazards and risks across the production process;
- Advocate low-carbon concepts and encourage suppliers to reduce consumption of energy, raw material, water resources, logistics services, etc. And minimise waste disposal and exhaust gases in the air, water and soil; and
- Explore and collaborate with suppliers to bolster quality and HSE management.
